NEWPORT NEWS AND NANTUCKET REPORT PRESENCE OF MYSTERIOUS SHIPS.

### SHIPPING HELD IN U. S. PORTS

Naval Patrols Sent To Investigate—Navy Officials Are Rather Skeptical.

**BULLETIN.**  
Tampa, Fla., Apr. 7.—The crew of a fishing smack reports seeing a large submarine off Sarasota Bay, Gulf of Mexico, yesterday.

(Associated Press)  
Newport, R. I., Apr. 7.—A German sea raider, said by naval attaches to be of 10,000 tons displacement, was officially reported off Nantucket at 7:40 o'clock this morning and the customs collector has warned shipping not to leave port until further notice. The raider was bound west.

**Another Off Virginia?**  
Newport News, Va., Apr. 7.—A German commerce raider was reported off the capes today. All shipping has been officially warned.

### NAVY IS NOTIFIED

Washington, April 7.—Reports that German raiders have been seen off Atlantic ports have been flashed to all ports and all shipping is practically tied up while naval patrols went to establish the identity of the mysterious ships.

The Navy Department expects many reports of raiders, and also anticipated that many of the supposed raiders will be found to be an offending tramp.

Officials consider it strange for a raider to venture so close to guarded ports; and they also say it is not improbable that the wireless warnings of the mysterious ship off Nantucket were heard all along the coast and are responsible for the reports of other raiders.

The report of the raider or raiders is the first breath of war at the doors of America and has sent a thrill through the country.

## CURSED UNCLE SAM; ARRESTED ON TRAIN

LOUD-TALKING MAN ON C. & N. W. TRAIN GREATLY SURPRISED.

Passengers on an evening train from Chicago through Dixon last evening relate that a man with pro-German sympathies spent most of the time cursing the government of the United States and everything connected with it, with the result that when the train arrived at Sterling and this passenger arose to leave the train he was tapped on the shoulder by a quiet looking gentleman who said, "Keep your seat." The man of un-American sympathies said, "No, I got off here." The quiet man showed a star under his coat and said that he happened to be on his way to Rock Island and he'd take the loud talker along with him, which he did.

Moral—Keep your mouth shut if you don't talk right.

### MRS. WILHELM'S UNCLE

**DIES IN THE EAST**  
Mrs. Lester Wilhelm received a telegram today announcing the death of her uncle, George Holtzner, at Rockwood, Pa. He has visited here a number of times and news of his death will be received by his many friends with sorrow.

## Stern Warning For Alien Enemies In President's Proclamation Of War

"Whereas, It is provided by section 4067 of the revised statutes as follows: 'Whenever there is a declared war between the United States and any foreign nation or government or any invasion of predatory incursion is perpetrated, attempted or threatened against the territory of the United States by any foreign nation or government, and the president makes public proclamation of the event, all natives, citizens, denizens or subjects of a hostile nation or government, being male of the age of 14 years and upward, who shall be within the United States and not actually naturalized, shall be liable to be apprehended, retained, secured and removed as alien enemies.'

**Authority of President.**  
"The President is authorized in any such event by his proclamation thereof or other public acts to direct the conduct to be observed on the part of the United States toward the aliens who become so liable; the manner and degree of the restraint to which they shall be subject and in what cases and upon what security their residence shall be permitted and to provide for the removal of

those who, not being permitted to reside within the United States, refuse or neglect to depart therefrom; and to establish any such regulations which are found necessary in the premises and for the public safety; "Whereas, By sections 4068, 4069 and 4070 of the revised statutes, further provision is made relative to alien enemies; "Now, therefore, I, Woodrow Wilson, President of the United States of America, do hereby proclaim, to all whom it may concern, that a state of war exists between the United States and the Imperial German government and I do specially direct all officers, civil or military, of the United States that they exercise vigilance and zeal in the discharge of the duties incident to such a state of war, and I do, moreover, earnestly appeal to all American citizens that they in loyal devotion to their country, dedicated from its foundation to the principles of liberty and justice, uphold the laws of the land and give undivided and willing support to those measures which may be adopted by the constitutional authorities in prosecution of the war."

## WINTER WHEAT CROP SHORT 50,000,000 BU.

DEPT. OF AGRICULTURE MAKES FORECAST—PRICES TAKE A BIG JUMP.

(Associated Press)  
Washington, Apr. 7.—A prospective slump of over 5,000,000 bushels in the winter wheat crop, compared with last year, is forecasted by the department of agriculture. This is the first war feeding problem to confront the country. The production of wheat is forecasted at 60,000,000 bushels, the largest ever recorded.

Chicago, Apr. 7.—Accepting the government crop report as a calamity the wheat market advanced sensationally. May wheat jumped 8%, September 13% and July 12%. The report of a sea raider near America was also a factor.

Wheat futures closed with the advance well held. Flour advanced 50 cents a barrel this afternoon.

### FIRST CYCLE RIDER IS FINED

The officers are determined to break up the practice of riding on the walks and all offenders will be fined.

## Y.M.C.A. TO WORK IN NEW U.S. ARMY

STATE ASSN. MAKES PLANS TO RAISE \$300,000 FOR THE GREAT WORK.

### DIXON ASSOCIATION WILL HELP

Representatives of Local Y Attended Big Meeting Held In Chicago.

The Dixon Y was represented at the meeting of the state association of Young Men's Christian associations of Illinois, held at the LaSalle Hotel, Chicago, Thursday and Friday of this week. E. B. Raymond, Dr. W. C. McWethy, J. G. Cleland and J. Der Kinderen attended and report a very important meeting. It was in fact a council of war, a consideration of the present needs for continued work in Europe and also for taking up work in connection with our own soldiers as they are called to the colors and sent to training camps. Dr. John R. Mott, international secretary of the Y. M. C. A., spoke to 400 men from this state at a banquet Thursday evening, discussing the European situation, and stated that the work of the Y there was highly appreciated and is very effective. England and Canada have spent and are spending vast sums of money among their own men and the American associations are supporting almost entirely work in Germany, France and Russia. Arrangements have been made to continue the work this year. In Germany and Austria 19 American secretaries have permitted themselves to be interned in order to remain and supervise the work.

### For U. S. Soldiers.

At the Friday morning conference the work in connection with our own soldier was taken up. In order to be prepared to meet the needs of our soldier boys the plans laid were based on the basis of serving 1,000,000 men and called for an expenditure of \$3,000,000 this year and providing 1000 secretaries. There will be a Y hut for each 5000 men. Each hut or unit will have a secretary to administer work, a physical director to direct recreation of troops, a religious work director and two office men. Illinois' share in this program is shown in resolutions adopted unanimously by the conference.

The resolutions provide for a state army committee of seven who shall have power to appoint an advisory co-operating committee of 100 men, to be thoroughly representative of the state. Illinois will secure a fund of \$300,000 for her share in the work, and an effort will be made to have the fund complete by April 30.

The resolutions conclude: Resolved, That it is the obligation of the Young Men's Christian Association to stimulate American citizenship and patriotism, not only among those who are not as yet naturalized, but also those of American parentage who need to be aroused to an appreciation of their obligation and duties as citizens.

Resolved, That the Young Men's Christian Association join with other religious, civic and social organizations in offering services in such co-operative measures as may be needed to meet the present emergency.

**Well Prepared.**  
It is said by men competent to judge correctly that the Y. M. C. A. will be the best prepared part of our army. This is due to the experience that has been gained by men now in authority in the work done during the Cuban war, the Russo-Japanese war, the work on the Mexican border last year, and most of all, the recent work in connection with the European war. The organization is not an experiment untried and uncertain, but an accepted agency of broad and successful experience and marvelous efficiency. It has been adopted by soldiers everywhere as their own and is accorded a warm welcome wherever it is found.

### CIRCUIT COURT CONVENES TODAY

The April term of the Lee county circuit court will convene Monday at 1:30 p. m., at which time Judge Farand will call the grand jury and instruct them. The criminal work of the court will probably be light the coming term, as but few cases have been bound over for grand jury investigation.

## PROCLAMATION

Whereas: Congress has supported our President and declared a state of war exists with Germany, whatever our personal opinions have been heretofore it is now the duty of every citizen to support the government of the United States without qualification.

In fulfilling one of my most sacred duties, I appeal to every citizen to speak and act in a manner becoming an American citizen. Let us forget the sympathies and animosities and prejudices that have grown up through a natural interest in Europe's war. Those things can only divide and weaken us. Let us now only think of America. There is no room in our minds for any other thoughts.

Citizens, let us give all our thoughts, all our anxiety, all our care, to that supreme problem, the welfare of our beloved country, the United States of America.

Respectfully,  
HENRY SCHMIDT,  
Mayor.

## OBEY THE LAW AND KEEP MOUTH SHUT

TIMELY WARNING GIVEN ALIEN ENEMIES BY ATTORNEY GENERAL GREGORY

Philadelphia, Apr. 7.—The following notice signed by U. S. Attorney General Gregory was received by the federal marshal of the Philadelphia district:

"No German enemy alien in this country who has not hitherto been implicated in plots against the interests of the United States need have any fear of action by the department of justice so long as he observes the following warning:

"Obey the law; keep your mouth shut."

### ADDITION TO REXAL DRUG STORE

Contractor Mark Smith Will Start Work Monday Morning.

Contractor Mark Smith, who has a large force of men at work at the Brown shoe factory enlarging and altering the boiler room, will on Monday start work on a one-story addition to the Campbell drug store, owned by Warner & Durkes. The addition will be 14x36 feet and the excavation for the basement will be slow and tedious work as, because of the narrow entrance to the rear of the store, all dirt will have to be wheeled to the wagons.

### NEW MELTING METHOD.

Electrical Furnace at Philadelphia Mint Cheaper and Faster.

An electrical melting furnace of new design and said to do the work of nine old style gas furnaces more cheaply and quickly soon will be installed at the Philadelphia mint to melt copper and nickel for coinage. It will have a capacity of 700 pounds of metal. The old style furnaces rarely melted more than eighty pounds at a time. The present method involves placing the metal in graphite crucibles, upon which is turned a powerful gas flame. The new furnace will introduce the heating medium into the metal itself, and instead of a crucible, a firebrick furnace with silicon glazing will be employed.

The European war has affected greatly the cost to the government of melting metal because of the difficulty in securing graphite crucibles. An inferior article, rarely lasting more than three meltings, now is being used at a cost approximately seventeen times as much as formerly.

Miss Edith Klepinger of Mt. Morris accompanied by her friend, Miss Edith Ling are here to spend the week end at the home of Mr. and Mrs. Chas. Klepinger.

## SOME GOTO CHURCH TO SEE EASTER HATS

EVANGELIST MORRIS SAYS SOME WOMEN DO NOT SEEK RELIGION.

### STRONG SERMON FRIDAY EVE.

"We Would See Jesus" Was Theme of Fine Service at Baptist Church.

There was another large congregation at the First Baptist church to hear Evangelist Morris last night despite the fact that services were being held in several other churches and the many attractions of the city. He took for his text: "Now there were certain Greeks among those that went up to worship at the feast; these therefore came to Philip and asked him, saying, 'Sir, we would see Jesus.'" His sermon to Christian people on the subject "Seeing Jesus" gained many words of commendation from the audience.

In touching upon the drawing power of the Christ he quoted "If I be lifted up I shall draw all men unto me" not that all men will see Jesus and be saved but that Christ ought to be lifted up so every man could see him. There is one man in the United States who is attracting the attention of the world. All eyes are looking to the Chief Executive of the nation, some to blame, some to praise, but the facts remain. He is the man of the hour. So the people turned to Jesus Christ when he made his triumphal entry into Jerusalem. We want to see Jesus today; the world is waiting to see Jesus, and many are praying earnestly for his coming.

Rev. Morris evidently does not believe that all people are striving to see him. "Some will attend Easter services in order to get a clearer vision of Christ, while others are there to display Easter hats. Some women will be in church Sunday who have not been there since last Easter."

After paying his compliments to the women who wear their Easter bonnets to be seen he plunged into more serious matter concerning the transfiguration of Christ, when the three disciples were permitted on the Mount to get a glimpse of his Messiahship. The Deity of Jesus Christ is the foundation of the Christian faith. It means more than being Divine. They crucified him because he claimed to be the Son of God and by virtue of this fact, equality with God. I have never entertained the idea that Christ was a great orator as we think of oratory, but he was a great teacher, who came in contact with humanity. He had compassion on the multitude, a friendly look to the unfortunate.

At this point Rev. Morris told of a very aristocratic pastor who was a splendid orator but did not sympathize with the common people. He thought a warm-hearted pastor could do more good in the world than a spellbinder from the pulpit.

Christian people must manifest Christ's spiritual presence in the world or the people will be unable to see Jesus. He claims to believe fully in the historic Christ but it is better for the world to have the universal spirit which Christ sent than a localized person. Few people would have an opportunity to hear or even see Jesus if he lived on earth in bodily form, but now the spirit is operating in the hearts and lives of his people. To see Jesus is to witness the incarnation of Christ in his disciples. All that Dixon sees of Christ is what is revealed in the lives of his professed followers.

He claimed that a "religious devil is the worst kind" and thereby showing his utter contempt for the hypocrite in the church. The acid test of every Christian is "Show us Jesus by your conduct and life." This is a real and honest request, declared the speaker.

There will be no meeting tonight, but Sunday will be a full day for the evangelist and the First Baptist church. He will deliver two sermons and give a B. Y. P. U. address. Large crowds are assured at all services. The Sunday evening service will end the series of meetings and Evangelist Morris will return to Chicago Monday morning.

### CO. JAIL WELCOMES COON BACK

Forgot Old Fine Against Him and Blew Into Town Friday.

George Coon, a foreigner who formerly worked at local garages, and who was ordered out of town last summer after he had been fined \$25, the fine being suspended during the fulfillment of his promise to remain out of Dixon, forgot he was an unwelcome guest here and came back yesterday. He ran into Commissioner Van Bibber, who had not forgotten, and now George is "doing" a 60-day sentence in the county jail on the old fine.

## SAY GERMAN SPIES STOPPED IN DIXON

Couple With Baby, Walking To the Coast, Arrested in Iowa.

A couple of months ago a man and woman, with a little baby, went through Dixon on a "walk" to California. They stated that they were walking from Chicago to the coast on a wager. They had the infant in a little express wagon with a canvas top, which made it resemble a prairie schooner of the early days. They remained in Dixon all night and were interviewed by several people here.

### German Spies?

The burns will keep her in bed for some time.

### U.S. WILL TAKE CARE OF WIFE

That's Reason Many Chicago Young Men Give for Marriage.

(Associated Press)  
Chicago, Apr. 7.—Although the license bureau was open only half a day today all records for marriage licenses in a single day were broken. 480 were issued. Some women admitted they were taking the step because the married men would not be called out until after the single men. One man expressed the feelings of many: "I am going to get married because the government will take care of the wife where it will pay no attention to a sweetheart. After the ceremony I am going to enlist."

## Company G. Has Largest Roster Of Any Command In Its Battalion

(Special Correspondence)  
Headquarters Co. G, 6th Inf., I. N. G.—Apr. 4.—Guard duty is over for the day and we are thankful, for it is raining but the boys do not have to go out in it. Finishing guard duty this morning was severe on the boys as the company which was to relieve us was late and we were five and one-half hours late to morning mess. Ezra Duffy had a warm breakfast awaiting us, however, and we were in better spirits after seeing him.

Guard duty for the battalion in general has been changed. Instead of guarding by companies, each company now furnishes a detail of men and non-commissioned officers who stand guard a day and a night, until relieved, going on duty at 8 o'clock in the morning, with two hours on duty and four hours off during the twenty-four hours. This arrangement will prove more satisfactory as each man will not be called upon as often, and

### BULLETIN.

New York, Apr. 7.—The Cuban Congress is expected to declare a state of war existing between Cuba and Germany tonight.

### BULLETIN.

Washington, Apr. 7.—The second day of war with Germany found every government agency in action along predetermined lines, with the congressional committee at work on the new army and finance measures. The navy is being mobilized, and orders for the arrest of 65 Germans in this country have been sent out. Some have already been convicted of crimes and are free on bail, while others are considered dangerous.

### To Use Seized Ships.

The officials have about determined to use German merchant ships, nearly a hundred of which have been seized, for government service. War and navy departments are arranging with contractors for enormous supplies. It seems likely that a large part of the war cost will be raised by higher taxes on incomes, inheritances and excess profits.

### Plan War's Finances.

Plans for financing the war were discussed today by members of the ways and means committee of the house and Chairman Simmons of the senate finance committee. The step considered most important now is the extension of immense credit to the entente allies.

### Appeals To Russia.

Official announcement of the entry of the United States into the war has been transmitted to the Russian government with an appeal to awaken Russia for peace within her borders, so that the newest democracy may "realize her obligation to mankind in the great world-struggle to vanquish autocracy."

**Laf-a-Lot Club Luncheon**  
The Laf-a-lot club members were entertained most pleasantly in an all day session Thursday at the home of Mrs. Mark Williams of Palmyra. The all day meeting was a departure from the usual custom of afternoon meetings and proved a most pleasing one. Eleven members and one guest, Miss Atkinson, were present. The table, from which a delicious scramble luncheon was served at noon, had been most prettily prepared by the hostess. Easter symbols furnishing the decorations. An automobile loaded with chickens and Easter eggs, surrounded by the larger candy eggs, formed the centerpiece. Eggs furnished an important part of the luncheon menu.

**Guest in Palmyra**  
Mrs. Warrington of 715 N. Ottawa Avenue was a guest at the home of Mr. and Mrs. R. E. Johnson for the day, Friday, at their Palmyra home.

**Pleasing Musicals**  
The musicals given at the St. James church Thursday evening was a most enjoyable affair, giving a great deal of pleasure to the good sized audience. A free will offering of about ten dollars was added to the fund of the St. James Aid Society, under whose auspices the program was given. Each number of the program was exceptionally good and a unique feature was the closing number, a set of tableaux representing popular advertisements.

**From Knox College**  
Philip Raymond returned home Thursday evening from Galesburg, Ill., where he is a student at Knox college, to spend Easter with his parents, Mr. and Mrs. Eugene Raymond.

**Entertainment Successful**  
The entertainment given at the Presbyterian church Thursday evening under the auspices of the Missionary society was highly successful, the play, "America's Expenditures" being presented to a goodly sized audience. A small admission of 15 cents was charged and the resultant sum was \$11.00.

The evening's entertainment opened with two numbers by the Children's chorus and Dorothy Raymond followed with a piano number, "Mendelssohn's Spring Song". Both songs and piano selection were highly pleasing. The play, "America's Expenditures", presented most forcibly the comparatively small sum which is spent each year on missions in comparison with the vast sums spent for creature comforts and human follies and foibles. The parts were ably taken by the cast as previously announced, with the exception that Mrs. Dwight Rolph took the part of "Millinery" instead of Mrs. Mark Keller, filling the place most acceptably.

The lecture on India by Mrs. O. L. Baird was excellent. The slides, illustrating the lecture, were sent out by the Mission board. Supt. C. I. Bixler operated the stereoscopic machine.

The play, "America's Expenditures" will be repeated on Tuesday afternoon before the Rock River Presbytery, which is to meet Tuesday and Wednesday, April 10 and 11th, at the Dixon Presbyterian church.

**Beautiful Cantata at St. Paul's**  
Easter music, than which none better has been heard in old St. Paul's church, will rejoice the pew holders on Easter Sunday. In the morning Daniel Prothero's stirring anthem, "Christ is Eternal" will be sung by the choir, which will be assisted by Mr. Titus on the violin. In the evening the cantata, "Zion" by Pearls, will be presented by the chorus and a number of soloists, with organ and violin accompaniment. The evening program in full will be as follows:

Hoberg, 1008 Fourth St., took place this morning at 9:30 o'clock. The wedding was a parsonage one, quietly solemnized at the parsonage of St. Paul's Lutheran Church. Rev. F. D. Altman read the service, using the ring ceremony. Mr. and Mrs. Harvey Paschen of this city were the attendants. The groom's sister, Miss Pauline Hoberg, and the bride's brother, R. Harold Espy, witnessed the ceremony.

Gray with touches of rose were the colors used in the bride's costume—a gray tulle gown with trimmings in the rose, a gray hat and gray cloak, all with bits of the bright, prettily contrasting color. Mrs. Paschen wore a suit of blue cloth. Both bride and matron of honor wore clusters of pink and white sweet peas and roses.

A wedding breakfast was served at the home of Mr. and Mrs. R. H. Espy at ten o'clock. The near relatives, including the groom's parents, Mr. and Mrs. W. P. Hoberg, Mrs. C. H. Fallstrom, Mr. and Mrs. Harvey Paschen, and the bride's brother, Harold from Chicago, were all who were present aside from the bridal couple and Mr. and Mrs. Espy. The breakfast was served by the groom's sister, Miss Pauline Hoberg, and the bride's cousin, Miss Florence Fallstrom. The house decorations were in pink and white. A cut glass basket of pink tulips and pink and white sweet peas formed the centerpiece of the breakfast table, while vases of Easter lilies were used on either side. The nut baskets were in pink and Easter place cards were used.

Mr. and Mrs. Hoberg left shortly after the breakfast to spend their honeymoon in Chicago. Both are the kind of young people whom it is a pleasure to know and the hearty best wishes of all their many friends will be accorded them upon their return. They will make their home after May 1st at 311 Monroe Ave., this city.

Her work has taken her to Alaska, to the Hawaiian Islands and Porto Rico, and to many parts of the continental portion of the United States—to Ellis Island, among the foreign people of Chicago, among the Indians of the West, the mountaineers of the South, and the Chinese and Japanese of the Pacific Coast.

As an intimate friend of President Wilson's family, she has often visited their home.

## CHEERFULNESS AT MEALS

In these enlightened times the father of a family knows better than to bring his business worries to the table and the mother has been admonished of the unwisdom of choosing mealtime for a recital of household cares. Even the grandmother, however devoted to the custom of her early days, has been warned not to shake her finger at the giggling youngsters and remind them that "children should be seen and not heard," but to let them be merry over their food. This is true at least of the fathers, mothers and grandmothers who have read such books as "What To Eat and When," the author of which submits much that every intelligent person at times forgets—as, for example:

"A calm and cheerful mind is the best aid to good digestion. Anxiety, anger, fear and disagreeable thoughts cause a tense, unnatural condition of the entire organism. The nerves of the digestive organs are affected by the tenseness of the mind, just as are the nerves of the body. Disagreeable thoughts affect the chemical activities of digestion and assimilation, resulting in an excess of acid in the blood and actual illness results. Even the temper shown in a crying baby may affect its digestion by disturbing the normal chemical activity." It is further shown that unhappy meals not only cause temporary digestive disturbance but gradually lead to weakening of the tissues, a harassed mind thus permanently injuring the body.

## MOBILIZING AMERICA.

Industrial preparedness requires not only a mobilization of the resources we have, but of those we haven't. Some of these latter are so important that without them we could not make war at all. For instance: With all our metalliferous abundance we are dependent upon Canada for practically all our supply of nickel ore. Our antimony, so much used in making alloys, comes from China. All the vast supply of nitrates absolutely necessary for our immense powder production is drawn from Chile. If at war with Great Britain, we should be without nickel; if at war with Japan we might kiss antimony and nitrates good-by for a season, along with some of our island possessions. \* \* \* Aside from the necessary commodities we do not possess, at least one that is absolutely invaluable lies exposed to enemy attack. This is sulphur, an ingredient common to all high explosives. All the sulphur in this country, except that found in bad eggs, comes from some beds on the coast of Louisiana and Texas. These beds are said to be in range of the gun of any marauding dreadnought.—Collier's Weekly.

## MEXICO INVADING AMERICA.

Wild reports have had the Mexican army crossing the U. S. frontier and invading this country. If the Mexicans attempt that, U. S. troops will never rest until Villa and Carranza are hung from the same sour apple tree and Mexico is thoroughly cleaned up from the United States border to the Panama Canal.

We advise that reported German raider that is lurking off the eastern coast to pick out its tree, for it has stirring times in store if it hangs around there long.

It may take Uncle Sam some time to get ready, but when he is ready give him plenty of room.

Congressman John C. McKenzie of this district is quoted as being in favor of universal military service. That suits his friends at home.

Americans were getting so blasé that it will take a real good sized war, right close to home, to make them take more than a passing interest in the affair.

Spring is shy and coy this season.

The men of the German gunboat Cormorant had plenty of spirit.

Germany thought we were "Too proud to fight."

America's intervention will bring democracy to Germany, but it is hardly probable that the German people will have a full appreciation of our service to them.

In spite of the war, you should be able to give a little time and thought and energy to "Clean Up Week," which is next week. The health department of the city will make an inspection of the city, and it behooves all to prepare for that inspection.

Those German ships in American ports will carry a lot of supplies to the allies.

"Hoch der Kaiser" sentiments are not conducive to good health when expressed aloud in the hearing of an American citizen.

## Byers Writes From Washington; Describes Scenes As Congress Met

Miss Rankin was directed to a seat near the rear of the chamber and the members swarmed around her to get acquainted and shake hands and wish her well. She was all smiles. Her mother sat in the gallery and the little woman waved her hand to the dear old lady.

Miss Rankin's office is No. 332, third floor of the House Office building. She says the door of the office will always be open to all.

Thousands of telegrams are coming to the offices of members this afternoon, some asking that the country be kept out of war and thousands asking that members vote to get into war.

Early this afternoon Senator Lodge was assaulted by a man of "peace." The senator gave the young fellow a sound beating, with the assistance of a Western Union messenger boy.

Several other fights in and about the capitol were reported, but kept quiet.

While I write this story I can see at least 3,000 people standing on the

capitol steps eager to get in to hear the president.

Nearly every one wears a badge around the right arm with the words "Keep us out of war" printed on in large white letters. Some have banners around their bodies with the same lettering.

Again, I wish to say that this was the wildest day I ever saw in Washington since I have been here with Mr. McKenzie.

The feeling here is, stand by the president, but many members do not wish to do that, but what is the correct thing to do, and putting it up to the fellow back home, "What would you do under the circumstances?" I heard several members say today: "If I vote for a declaration of war I will be defeated for re-election, but what can a man do?"

Tomorrow will be another wild day for then the debate on the Flood resolution will begin and every member desires to be heard. The debate on the "war resolution" will be deeply interesting and it will be one of the warmest debates in the house for many years.

## WHITE SOX-GIANTS IN WORLD SERIES?

H. C. HAMILTON, UNITED PRESS EXPERT, EXPECTS THEM TO BATTLE.

## LOOK BEST IN THE LEAGUE

By H. C. Hamilton  
(United Press Staff Correspondent)

New York, Apr. 7.—Unless all the dope fails; unless fate kicks a hole in arithmetic; unless something just as bad happens, the world's series next fall should be a lurid, internecine struggle between the Chicago White Sox and the New York Giants. The fight will be on next Wednesday.

Bringing it down to a final, gnawing calculation it must be admitted that, in spite of the record of the Boston Braves, the Yale football team, Dave Fultz, and that other David, the grand old dope usually sticks out all over the result in the long run. It is the arithmetical solution of a problem that stands up for all time. The young man who attempts to pick 'em backward usually falls down on the job.

Hence it is the intention to record the reasons why the New York Giants and the Chicago White Sox should, and ought to, be powerful swatters and the ends of a baseball series next fall.

Some one said not long ago that temperament is due to break or make the Giants. It was pointed out that, with Benny Kauff, Heinie Zimmerman, Davey Robertson, Charley Herzog and one or two others, a first-class opera troupe in thinkings could be conscripted out of the Giant ranks. It was declared that it all depended upon how the base hits lined up and how the hair was rubbed.

That may be true. Certain it is that no one ever had the good fortune to get along with Heinie Zimmerman for very long. However John McGraw has been subduing dispositions for a long time, and his success with Benny Kauff in ironing the kinks out of that young man will bear more than passing scrutiny.

The Giants will line up with Holke on first base, Herzog at second, Fletcher at shortstop, and Zimmerman at third. In the outfield will be George Burns, Benny Kauff and Robertson. Behind the plate McGraw has arrayed Rariden, McCarthy and Gibson. Pitchers will be Schupp, Tesrau, Saltee, Anderson, Perritt, Smith and others with reputations. Honus Lobert and a recruit or two will take care of utility duty, while Jim Thorpe and Red Murray both probably will be retained for outer garden extra work.

There's a lineup that presents one of the most startling array of swatters ever gathered together under one management in the National league. McCarthy, Kauff, Holke, Robertson and the Chicago White Sox should, and ought to, be powerful swatters and the ends of a baseball series next fall.

National league's premier southpaw will inhabit the pitching slab.

Temperament, viewed from this angle, will have little to do with it. It is difficult to see how such an array of talent can run into a slump depressing enough to take away the punch.

As for the White Sox—it's a longer road. Clarence Rowland has had his chance with virtually the same lineup that he started with this year, and no world's series has graced the Comiskey table since Rowland took charge.

Rowland has a great pitching staff provided he can get going. Red Faber should be ready for another fine season; Jim Scott is doing an effective come-back; Eddie Cicotte is due for lots of good days; Joe Benz hasn't been sick this winter and Red Russell is having luck with his left wing. Mel Wolfgang is a hearty heaver and Williams will help him out. Rowland can line up Happy Felch, Joe Jackson and John Collins, a slugging trio, as proof of outfield strength, with Jacques Fournier for pinch duty. Eddie Collins will have a good season. Buck Weaver will be at third base. The weak points are first and shortstop. Much dependence will be placed in Ray Schalk, premier catcher.

## IS MUCH BETTER.

Bruce Zigler of northeast of the city, who has been ill since last November, is reported to be considerably improved.

586.8 Miles

## Through the Heart of Chicago in 24 Hours

## A Typical Chalmers Performance

At 12 noon, Monday, March 26, a stock Chalmers seven-passenger touring car with first and second gears removed, was started north on Michigan Boulevard through Chicago traffic.

At noon Tuesday, March 27, the Chalmers was stopped at the starting point. It had gone 586.8 miles through Chicago's densest traffic. The motor had never been stopped. Nothing but high gear was used.

To prove conclusively Chalmers flexibility on high gear, the low and intermediate gears were removed from the transmission.

The car was a standard Chalmers seven-passenger touring model, complete with standard body, top and full equipment. The same model you can buy today.

An average of slightly over 14 miles per gallon of gasoline was attained, an excellent example of Chalmers economy.

586.8 miles, through the famous congested Chicago "loop" district, is a wonderful feat. This performance on high gear is even more wonderful. It is without an equal.

It is an endorsement of the motor. It proves Chalmers reliability. It demonstrates Chalmers cooling. It shows Chalmers flexibility and perfect control. It is a new achievement.

A condensed summary of the signed certificate issued by the Contest Board of the American Automobile Association, under whose supervision the test was made, is reproduced below.

THIS IS TO CERTIFY that the Chalmers seven-passenger car above mentioned was a fully equipped stock car. It was driven for 24 hours through Chicago traffic. Only high gear was used. The motor was never stopped during the run. The mileage obtained was 586.8 miles. The gasoline consumption was an average of slightly over 14 miles per gallon.

Chairman Contest Board, American Automobile Association.

## Some Other Chalmers Achievements

## Chicago to New York

On June 7, 1916, a Chalmers stock car shattered all existing road records between Chicago and New York, making the run of 1047 miles in 31 hours. The best previous time was made by a Packard driven by E. C. Patterson, whose time was 35 hours 43 minutes.

## Giant's Despair Mountain Climb

On October 6th, 1916, a Chalmers captured the free-for-all event at the Wilkes-Barre hill climb on Giant's Despair mountain, winning the \$1,000 Hollenbeck Trophy and defeating four 12-cylinder cars, several well-known racing creations

and many of the highest-priced and highest-powered American cars.

## Wins Pike's Peak Climb

August 11, 1916, a Chalmers carried off first honors in the 230 cubic inch class on the terrific grades of Pike's Peak in Colorado. Its time was within a few seconds of much higher-powered, and specially built machines.

## Detroit to Indianapolis

On June 12, 1916, the Chalmers set a new record over the roads between Detroit and Indianapolis, 305 miles, making the trip in eight hours, 23 minutes.

## Atlanta to Chattanooga

June 24, 1916, a Chalmers lowered all records between Atlanta and Chattanooga. The distance of 125 miles was covered in 3 hours, 53 minutes. This is faster than the time of the Dixie Flyer, the fastest railroad train of the south.

## Dallas to San Antonio

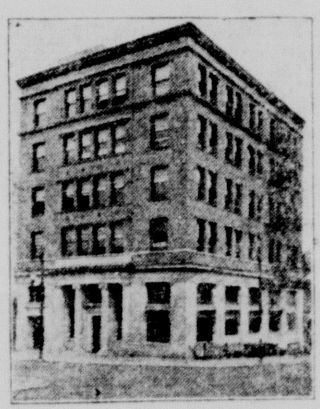

Another famous train—the Katy Limited—was beaten by a Chalmers between Dallas and San Antonio. The Chalmers made the run in 9 hours and 22 minutes, 1 hour and 33 minutes faster than train time.

SYNOPSIS

EDWARD MALONE, newspaper man, is in love with Gladys Huntington. She tells him the man she loves must do some brave act. Malone gets an assignment to interview Professor Challenger, explorer.

When Challenger and Malone meet Challenger proclaims Malone an impostor, and they have a fierce personal encounter.

He leaned forward with great earnestness.

"I suppose you are aware," said he, checking off points upon his fingers,

"It proves that you are the rankest impostor in London."

"That the cranial index is a constant factor?"

"Naturally," said I.

"And that telegony is still sub judice?"

"Undoubtedly."

"And that the germ plasma is different from the parthenogenetic egg?"

"Why, surely!" I cried and gloried in my own audacity.

"But what does that prove?" he asked in a gentle, persuasive voice.

"Ah, what indeed?" I murmured.

"What does it prove?"

"Shall I tell you?" he cooed.

"Pray."

"It proves," he roared, with a sudden blast of fury, "that you are the rankest impostor in London—a vile, crawling journalist, who has no more science than he has decency in his composition!"

He had sprung to his feet with a mad rage in his eyes. Even at that moment of tension I found time for amazement at the discovery that he was quite a short man, his head not higher than my shoulder—a stunted Hercules whose tremendous vitality had all run to depth, breadth and brain.

"Gibberish!" he cried, leaning forward with his fingers on the table and his face projecting. "That's what I have been talking to you sir—scientific gibberish! Did you think you could match cunning with me—you with your walnut of a brain? You think you are omniscient, you infatuated scribbler, don't you? That your praise can make a man and your blame can break him? We must all bow to you and try to get a favorable word, must we? This man shall have a leg up, and this man shall have a dressing down! Creeping vermin, I know you! You've got out of your station. Time was when your ears were clipped. You've lost your sense of proportion. Swollen gas bags! I'll keep you in your proper place. Yes, sir, you haven't got over G. E. C. There's one man who is still your master. He warned you off, but if you will come by the Lord you do it at your own risk. Forfeit, my good Mr. Malone, I claim forfeit! You have played a rather dangerous game, and it strikes me that you have lost it."

"Look here, sir," said I, backing to the door and opening it. "You can be as abusive as you like, but there is a limit. You shall not assault me."

"Shall I not?" He was slowly advancing in a peculiarly menacing way, but he stopped now and put his big hands into the side pockets of a rather boyish short jacket which he wore. "I have thrown several of you out of the house. You will be the fourth or fifth. Three pound fifteen each—that is how it averaged. Expensive, but very necessary. Now, sir, why should you not follow your brethren? I rather think you must." He resumed his unpleasant and stealthy advance, pointing his toes as he walked, like a dancing master.

I could have bolted for the hall door, but it would have been too ignominious. Besides, a little glow of righteous anger was springing up within me. I had been hopelessly in the wrong before, but this man's menaces were putting me in the right.

"I'll trouble you to keep your hands off, sir. I'll not stand it."

"Dear me!" His black mustache lifted and a white fang twinkled in a sneer. "You won't stand it, eh?"

"Don't be such a fool, professor!" I cried. "What can you hope for? I'm fifteen stone, as hard as nails and play center three-quarter every Saturday for the London Irish. I'm not the mau—"

It was at that moment that he rushed at me. It was lucky that I had opened

"We did a Catharine wheel together down the passage."

the door or we should have gone through it. We did a Catharine wheel together down the passage. Somehow we gathered up a chair upon our way and bounded on with it toward the street. My mouth was full of his beard, our arms were locked, our bodies intertwined and that infernal chair radiated its legs all round us. The watchful Austin had thrown open the hall door. We went with a back somersault down the front steps. I have seen the two Maes attempt something of the kind at the halls, but it appears to take some practice to do it without hurting oneself. The chair went to matchwood at the bottom, and we rolled apart into the gutter. He sprang to his feet, waving his fists and wheezing like an asthmatic.

"Had enough?" he panted.

"You infernal bully!" I cried as I gathered myself together.

Then and there we should have tried the thing out, for he was effervescing with fight, but fortunately I was rescued from an odious situation. A policeman was beside us, his notebook in his hand.

"What's all this? You ought to be ashamed," said the policeman. It was the most rational remark which I had heard in Enmore Park. "Then," he said, turning to me, "what seems to be the trouble?"

"This man attacked me," said I.

"Did you attack him?" asked the policeman.

The professor breathed hard and said nothing.

"It's not the first time, either," said the policeman, severely, shaking his head. "You were in trouble last month for the same thing. You've blackened this young man's eye. Do you give him in charge, sir?"

I relented.

"No," said I, "I do not."

"What's that?" said the policeman.

"I was to blame myself. I intruded upon him. He gave me fair warning."

The policeman snapped up his notebook.

"Don't let us have any more such going on," said he. "Now, then, move on, there, move on!" This to a butcher's boy, a maid and one or two loafers who had collected. He clumped heavily down the street, driving this little flock before him. The professor looked at me, and there was something humorous at the back of his eyes.

"Come in!" said he. "I've not done with you yet."

The speech had a sinister sound, but I followed him none the less into the house. The manservant, Austin, like a wooden image, closed the door behind us.

## EXCUSE FOR KILBANE REFUSING TO FIGHT

KNOWN, MUCH HEAVIER, MAY HAVE KILLED JOHNIE'S CHANCE AT WELSH.

By H. C. Hamilton

(United Press Staff Correspondent)

New York, Apr. 5.—A short time ago Johnny Kilbane came east to fight. He was matched with a young lightweight before a Syracuse, N. Y., club and he agreed to allow this man to enter the ring weighing 133 pounds, but when it came weighing time and the young opponent of the featherweight hopped on the scales weighing 137 pounds, Kilbane refused to fight. The crowd went wild on receiving this news and a young riot was in progress in a short time. The club officials waxed indignant. In fact, everyone had a brick and he aimed it at Kilbane's head. A few days later a well known fight fan came out with the statement that Kilbane had gone wrong in his declaration not to meet a man who weighed almost 10 pounds more than himself. "Any man," he said, "featherweight or no featherweight, who challenges Freddie Welsh for the world's lightweight title and agrees to let that champion come into the ring weighing 135 pounds should not be afraid to meet a comparatively unknown man who weighs 137 pounds."

Now this fan may have been at the ringside during the should-have-been

## Dixon High School Notes

### NORTH DIXON HIGH SCHOOL NOTES

After a week's vacation faculty and pupils of North Dixon schools are ready to resume work on Monday. The buildings have been thoroughly cleaned and put in excellent condition for the last quarter of the school year.

As guests of Superintendent and Mrs. Hagen the Senior class on Tuesday evening enjoyed the performance of Mary Pickford in "A Poor

was there, there was an excuse for his complaint, although it was a lame one. But it is a certainty that he did not take into consideration the fact that this youth may have been a hard hitter, one capable of putting over the sleep producing wallop on Kilbane's chin. Welsh, as is known, long ago lost the habit of knocking out his opponents. He never even bruises the most of the men he meets. Whether Kilbane was right or wrong it is a cinch that he did the best thing to protect what little reputation is left him in a New York ring. Criticism of the kind the fan made is what has discounted Kilbane's ability here. Whenever New York gets to the point of accepting Kilbane at his real worth—which is almost his weight in gold—it will see some good fights, something it does not see when Welsh and some of the other high priced lads get into action.

Printed calling cards, or if you like, engraved, at the B. F. Shaw Pig Co.

Little Rich Girl" at the Family theatre. Later the party was "treated" at Sterling's.

On the evening of April 20th in Kindergarten Hall, under the auspices of the Senior class, Supt. C. H. Anderson of the Polo schools will present a program, full particulars of which will be published later. The public is urged to reserve the evening two weeks hence as a delightful program is being arranged.

With Her Eyes.

They stood by the old well together. "How shall we drink?" he said.

"There is no bucket here." She lowered her eyes. When she raised them again they were full of water.—Princeton Tiger.

Thought Drinking Only a Fashion.

Charles Booth, the economist, who regarded drink as one of the most prolific causes of pauperism, thought the drinking habit was principally a matter of fashion, rapidly passing away among the upper classes, while among the middle classes it was preserved as a "social necessity," men treating each other to drinks they would perhaps sooner be without. Among the poor men drank to excess from a perverted pride. "The whole thing," he declared, "is so baseless that it is conceivable it might very rapidly come to an end. The cure lies, I think, not so much in a total abstinence propaganda, though that is indirectly useful, as in the raising of the whole standard of life."

### How the Name "Turncoat" Started.

The epithet "turncoat" took its rise from one of the first dukes of Savoy, whose dominions lying open to the incursions of the two contending houses of Spain and France he was obliged to temporize and fall in with that power that was most likely to distress him. So, being frequently obliged to change sides, he humorously got a coat made that was blue on one side and white on the other and might be worn either side out. While in the Spanish interest he wore the blue side out, and the white side was the badge for the French; hence he was called Emmanuel, surnamed the Turncoat, by way of distinguishing him from other princes of the same name.

**Mentality of Octopi.**  
"There is a great deal of difference in the mental attitude of devil fishes and octopi," says Charles F. Holden in St. Nicholas. "In a tank in the Aquarium, which contains three or four octopi, all but one were timid. One attacked my hand, and seemed to enjoy being touched. A large California sheephead in this aquarium became so tame that it liked to be scratched about the head with a wire or stick, and followed people about the tank, especially the man who fed it. It was interesting to see it change color as the man stroked it with the wire."

"Daddy,"  
"Dad" is the English of "papa." "Dad" and "daddy" were well known in the sixteenth century. "Papa" did not come in, borrowed from abroad until the seventeenth century was well advanced.

Florida at about the end of the former century defined the Italian "papa" as "the first word that children are taught to call their father, as ours say dad, daddie or bab." "Dad" seems to be the commoner to mankind of the two. Nausicaa in the "Odyssey" calls her father "pappa phile" (dear papa), but Greek had "tata" also, and Welsh has "tati" and Irish has "dadd."—London Chronicle.

## DON'T SCOLD, MOTHER THE CROSS CHILD IS BILIOUS FEVERISH

Look at tongue! If coated, clean little stomach, liver, bowels

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has headache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs." and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company" other fig syrup.

It's because Pape's Diaepsin "really does" sweeten out-of-order stomachs that give it its millions of sales annually.

## PLANTS ARE FACTORIES

## PLANTFOOD IS FOUND IN THE SOIL

Railroad trains run through the land, collecting and hauling raw material to the factories in different cities and towns. Likewise the plant roots gather up raw available plantfood of the soil and carry it to the stalk where it passes up to the leaves and is digested in the green matter or chlorophyll with the help of the power that comes from the sun. The leaves of all plants are the factories that manufacture the raw plantfood of the soil into digested food that is used to build up every part of the plant, including stalks, leaves, roots, fruit, grain, etc. The wider the leaf and the more leaves on the plant the greater the stomach or digestive surface consequently the more plantfood that can be digested. One reason so many farmers get small crops is that they do not have enough leaf surface to digest plantfood.

Peter J. Lux, the champion corn grower of Indiana, was well aware of this important fact when he selected his corn not alone for the ear but for a wide leaf to digest more plantfood. As a result of this fact he won many premiums and medals on his corn, including a \$500 prize at Whiteville, Mo.

In selecting any seed, care should be exercised to see that its different characteristics suit it to the particular region where you want to grow it. Then see that the soils is well supplied with humus and plantfood by adding both manure and fertilizers. The larger the leaf or stomach of the plant the larger the quantity of plantfood that can be digested if it is at hand consequently the larger and better the crop that can be grown. This is efficiency and efficiency is what we as farmers should ever keep before us this year.

## QUIT MEAT IF YOUR KIDNEYS ACT BADLY

Take tablespoonful of Salts if Back hurts or Bladder bothers—Drink lots of water.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night, when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in uric acid so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.
